Dear Mark,

The end of the Lexus show has finally arrived. Most of the bills have been paid and the materials stored away. At last I have time to thank those individuals that help make this meeting a huge success. I'm not sure if you received any word, but Lexus was ecstatic with the show, every aspect of it.

I would like to personally thank you for all your efforts in assembling the video segments. Much of the success of the show was due to the refined content of the video modules. Your assistance in this area was a great contributing factor in bringing about those results.

I hope I have the chance to work with you on future projects at MultiMedia. Judging by the success of this one, I'm sure that will be possible. Good luck with all your future endeavors.

Truly yours,

Jim Kubik
